We're more than *just* our Job Board

JOB BOARD POLICY

The following are 'filters' that we use to assess whether or not to post a job on our Job Board:

- A) **Is the company part of the broad cultural sector?** If it is, we allow postings for a wide range of jobs including those that are not strictly 'creative' like financial administration, data collection, bartending, etc.

- B) **Is the job itself relevant to our sector even though the company or organization isn't part of the sector?** For example, a graphic designer position at an insurance company.

It can be a hard distinction. We want the majority of our job posts to be dedicated to actual creative positions while still allowing some that might just be transitional or starter jobs that allow individuals to pursue their artistic careers while supporting themselves.

We will continue to keep an eye out to make sure the balance of creative vs non-creative positions is appropriate.

Thank you for your interest and attention in our Job Board.
